Balanced Capital Structure

Mortgage Debt

- \$379 million mortgage loan with Capital One, at a 3.7% interest rate fixed by swap, that matures in 2026
- \$119 million CMBS loan with KeyBank, at a 4.6% fixed interest rate, that matures in 2028
- \$43 million CMBS financing with BMO, at a 2.9% fixed interest rate, that matures in 2031
- Subsequent to quarter end, HTI entered into a \$240 million CMBS financing. Proceeds totaling approximately \$196 million were used to repay all draws under the Company's Credit Facility. The Company also terminated the Credit Facility. After the repayment, the Company had approximately \$39 million for general corporate purposes. The CMBS financing has a term of 10 years and 6.5% interest rate⁽⁵⁾

Credit Facilities

- **Fannie Mae Master Credit Facilities:** Consists of two facilities between KeyBank and Capital One. The credit facilities had a weighted average interest of 7.1% as of March 31, 2023, and mature in 2026

Through April 2024, borrowings under HTI's Fannie Mae Credit Facilities are capped at an attractive 3.5% LIBOR rate, which is significantly less than the current spot LIBOR rate of 5.1%⁽⁶⁾

Note: Metrics as of and for the three months ended March 31, 2023 and March 31, 2022.

(1) See Definitions in the Appendix for a full description.

(2) As of March 31, 2023, HTI had \$35.8 million of cash and cash equivalents and availability was \$189.2 million. Subsequent to March 31, 2023, HTI terminated its Credit Facility which eliminated its borrowing availability thereunder.

(3) Excludes the effect of deferred financing costs, net and mortgage premiums/discounts, net. The equity interests and related rights in our wholly-owned subsidiaries that directly own or lease the eligible unencumbered real estate assets comprising the borrowing base of HTI's credit facility are pledged for the benefit of the lenders thereunder. These real estate assets are not available to satisfy other debts and obligations, or to serve as collateral for any new indebtedness, unless the existing indebtedness secured by these properties is repaid or otherwise refinanced.

Please see pages 14 and 15 for further information. Further, forward-looking statements speak only as of the date they are made, and HTI undertakes no obligation to update or revise any forward-looking statement to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results, unless required to do so by law.

This presentation includes estimated projections of future operating results. These projections were not prepared in accordance with published guidelines of the SEC or the guidelines established by the American Institute of Certified Public Accountants for preparation and presentation of financial projections. This information is not fact and should not be relied upon as being necessarily indicative of future results; the projections were prepared in good faith by management and are based on numerous assumptions that may prove to be wrong. Important factors that may affect actual results and cause the projections to not be achieved include, but are not limited to, risks and uncertainties relating to the Company and other factors described in the section titled Risk Factors of HTI’s Annual Report on Form 10-K for the year ended December 31, 2022 filed on March 17, 2023 and all other filings with the SEC after that date. The projections also reflect assumptions as to certain business decisions that are subject to change. As a result, actual results may differ materially from those contained in the estimates. Accordingly, there can be no assurance that the estimates will be realized.

This presentation includes certain non-GAAP financial measures, including net operating income (“NOI”). NOI is a non-GAAP measure of our financial performance and should not be considered as an alternative to net income as a measure of financial performance, or any other performance measure derived in accordance with GAAP and it should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items. The reconciliation of net income to NOI for the applicable periods is set forth on page 18 to this presentation.

Certain statements made in this presentation are “forward-looking statements” (as defined in Section 21E of the Securities Exchange Act of 1934, as amended), which reflect the expectations of the Company regarding future events. The forward-looking statements involve a number of risks, uncertainties and other factors that could cause actual results to differ materially from those contained in the forward-looking statements. Such forward-looking statements include, but are not limited to, market and other expectations, objectives, and intentions, as well as any other statements that are not historical facts.

Our potential risks and uncertainties are presented in the section titled “Item 1A-Risk Factors” disclosed in our Annual Report on Form 10-K for the year ended December 31, 2022 filed with the SEC on March 17, 2023 and all other filings with the SEC after that date. We disclaim any obligation to update and revise statements contained in these materials to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results over time, unless required by law. The following are some of the risks and uncertainties relating to us, although not all risks and uncertainties, that could cause our actual results to differ materially from those presented in our forward-looking statements:

- Our operating results are affected by economic and regulatory changes that have an adverse impact on the real estate market in general.
- Our property portfolio has a high concentration of properties located in Florida. Our properties may be adversely affected by economic cycles and risks inherent to those states.
- Our loan agreement in connection with the CMBS financing requires us to maintain a minimum balance of cash and cash equivalents totaling \$12.5 million, which may restrict our ability to use cash that would otherwise be available to us.
- A reduction in our NOI can impact our ability to satisfy debt covenants and could adversely affect our business.
- We are subject to risks associated with a pandemic, epidemic or outbreak of a contagious disease, such as the global COVID-19 pandemic, including negative impacts on our tenants and operators and their respective businesses.
- Inflation and continuing increases in the inflation rate will have an adverse effect on our investments and results of operations.
- No public market currently exists, or may ever exist, for shares of our common stock and our shares are, and may continue to be, illiquid.
- In owning properties we may experience, among other things, unforeseen costs associated with complying with laws and regulations and other costs, potential difficulties selling properties and potential damages or losses resulting from climate change.
- We focus on acquiring and owning a diversified portfolio of healthcare-related assets located in the United States and are subject to risks inherent in concentrating investments in the healthcare industry.
- The healthcare industry is heavily regulated, and we, our tenants, and operators may be impacted by new or existing laws or regulations, or changes to these laws or regulations, such as the CARES Act and the auditing and reporting requirements instituted by the CARES Act.
- Loss of licensure or failure to obtain licensure could result in the inability of tenants to make lease payments to us.
- We depend on tenants for our rental revenue and, accordingly, our rental revenue depends upon the success and economic viability of our tenants. Lease terminations, tenant default and bankruptcy have adversely affected and could in the future adversely affect our income and cash flow.
- We assume additional operating risks and are subject to additional regulation and liability because we depend on eligible independent contractors to manage some of our facilities.

- We have substantial indebtedness and may be unable to repay, refinance, restructure or extend our indebtedness as it becomes due. Increases in interest rates could increase the amount of our debt payments. We will likely incur additional indebtedness in the future.
- We depend on our Advisor and our Property Manager to provide us with executive officers, key personnel and all services required for us to conduct our operations and our operating performance may be impacted by an adverse changes in the financial health or reputation of our Advisor and our Property Manager.
- All of our executive officers face conflicts of interest, such as conflicts created by the terms of our agreements with the Advisor and compensation payable thereunder, conflicts allocating investment opportunities to us, and conflicts in allocating their time and attention to our matters. Conflicts that arise may not be resolved in our favor and could result in actions that are adverse to us.
- We have long-term agreements with our Advisor and its affiliates that may be terminated only in limited circumstances and may require us to pay a termination fee in some cases.
- Estimated Per-Share NAV may not accurately reflect the value of our assets and may not represent what a stockholder may receive on a sale of the shares, what they may receive upon a liquidation of our assets and distribution of the net proceeds or what a third party may pay to acquire us.
- The stockholder rights plan adopted by our board of directors, our classified board and other aspects of our corporate structure and Maryland law may discourage a third party from acquiring us in a manner that might result in a premium price to our stockholders.
- Restrictions on share ownership contained in our charter may inhibit market activity in shares of our stock and restrict our business combination opportunities.
- We may fail to continue to qualify as a REIT.

Appendix

Annualized Straight-Line Base Rent: Represents the total contractual base rents on a straight-line basis to be received throughout the duration of the lease currently in place expressed as a per annum value. Includes adjustments for non-cash portions of rent.

Cap Rate: Capitalization rate is a rate of return on a real estate investment property based on the expected, annualized straight-lined rental income that the property will generate under its existing lease during its first year of ownership. Capitalization rate is calculated by dividing the annualized straight-lined rental income the property will generate (before debt service and depreciation and after fixed costs and variable costs) by the purchase price of the property. The weighted average capitalization rate is based upon square feet.

Cash Rent: Represents total of all contractual rents on a cash basis due from tenants as stipulated in the originally executed lease agreements at inception or any lease amendments thereafter. We calculate “original Cash Rent collections” by comparing the total amount of rent collected during the period to the original Cash Rent due. Total rent collected during the period includes both original Cash Rent due and payments made by tenants pursuant to rent deferral agreements.

Leasing Pipeline: Includes (i) all leases fully executed by both parties as of May 15, 2023, but after March 31, 2023 and (ii) all leases under negotiation with an executed LOI by both parties as of May 15, 2023. This represents four LOIs totaling 25,003 square feet and 11 fully executed leases totaling 39,197 square feet. There can be no assurance that the LOIs will lead to definitive leases or will commence on their current terms, or at all. Leasing Pipeline should not be considered an indication of future performance.

Lease Term Remaining: Current portfolio calculated from March 31, 2023. Weighted based on square feet.

Liquidity: As of March 31, 2023, HTI had \$35.8 million in cash and cash equivalents, and \$189.2 million available for future borrowings under HTI's credit facility, of which \$112.0 million was available for general corporate purposes and acquisitions, with the remainder available to repay other existing debt obligations. Subsequent to March 31, 2023, HTI terminated its Credit Facility which eliminated its borrowing availability thereunder.

Net Debt: Total gross debt of \$1.1 billion per page 7 less cash and cash equivalents of \$35.8 million as of March 31, 2023.

NOI: Defined as a non-GAAP financial measure used by us to evaluate the operating performance of our real estate. NOI is equal to revenue from tenants, less property operating and maintenance expenses. NOI excludes all other items of expense and income included in the financial statements in calculating net income (loss).

Net Leverage: Represents “Net Debt” as defined above divided by total assets of approximately \$2.2 billion (which includes cash and cash equivalents) plus accumulated depreciation and amortization of \$628.5 million as of March 31, 2023.

Occupancy: For MOB properties, occupancy represents percentage of square footage of which the tenant has taken possession of divided by the respective total rentable square feet as of the date or period end indicated. For SHOP properties, occupancy represents total units occupied divided by total units available as of the date or period end indicated.
